DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-6, 10-11, 15-16, 20-29, are drawn to path protection or fault detection or notification, classified in class 370, subclass 242.
- II. Claims 18, 30, drawn to a bus switch, classified in class 370, subclass 360.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions claims 18, 30 have nothing to do with fault detection or notification.
